

CLEAN³ SOFTWALL SYSTEMS

CLEAN³
MODULAR SYSTEMS

WWW.CLEAN-CUBED.COM

Our CLEAN³ Softwall Systems are available up to Class 100 (ISO 5), each equipped with HEPA filtered modules and available in both standard and custom sizes to meet your needs.

CONSTRUCTION

Our Softwall Cleanrooms are made of Tubular cold rolled steel welded frames, primed and finished in white paint. The ceiling frame is composed of welded construction for fast and efficient assembly (stainless steel frames are available as an alternative).

FILTRATION

Our FFU's can provide up to 100% coverage. Our HEPA filters are rated 99.99% efficient at 0.3 microns. The Blowers are 110V/60HZ and require only 100 watts of power.

- **Lighting:** LED lighting for low energy consumption
- **Curtains:** Strip curtains on all sides
- **Available Options:** Stainless Steel frame/casters
- **Shipping:** FOB Shipping Point

Our Softwall Cleanroom unit may be shipped as a kit for customer assembly, wiring and certification or we can provide assembly as part of our complete package.
